

Can I subtract without crossing 10?

Complete these sentences and the grid. Then complete the number sentence.

There were 12 biscuits on a plate. Mo eats 1 of them. How many are left?

First there were _____ biscuits.

Then there were _____ biscuits.

Now there are _____ biscuits.

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$

First	Then	Now

Work out the answers to these questions by filling in the tens frames.

$11 - 0 = \underline{\quad}$

$12 - 12 = \underline{\quad}$

Work out these questions using objects.

$13 - 2 = \underline{\quad}$

$15 - 3 = \underline{\quad}$

Work these out on a number line.

$16 - 2 = \underline{\quad}$

$17 - 4 = \underline{\quad}$
