

Can I subtract on a number line not crossing 10?

$$18 - 6 = \underline{\quad}$$

$$19 - 5 = \underline{\quad}$$

Sam has worked out this subtraction. Work out what the number sentence is.

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$

Sam has worked out this subtraction. Work out what the number sentence is.

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$

There are 20 cookies in a jar. Mo eats 6 of them. How many are left in the jar?

$$\underline{\quad} - \underline{\quad} = \underline{\quad}$$
