

Recognising landmarks
and basic human and
physical features from
aerial photographs

Landmark

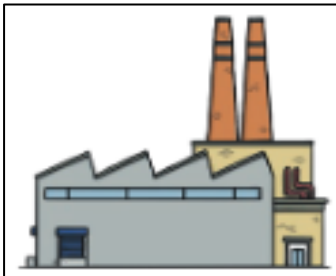

This is something on the ground that can be seen from far away and can let someone know where the place is.

These are all landmarks.

Human feature

This is something that humans have made on the land. Do you remember these human features that we looked at? See if you can remember the names of them.

Physical feature

This is something that the land or Earth has made. Do you remember these physical features that we looked at? See if you can remember the names of them.

Ariel photographs

These are photos which have been taken from high in the sky usually in an aeroplane, helicopter or anything else that can fly.

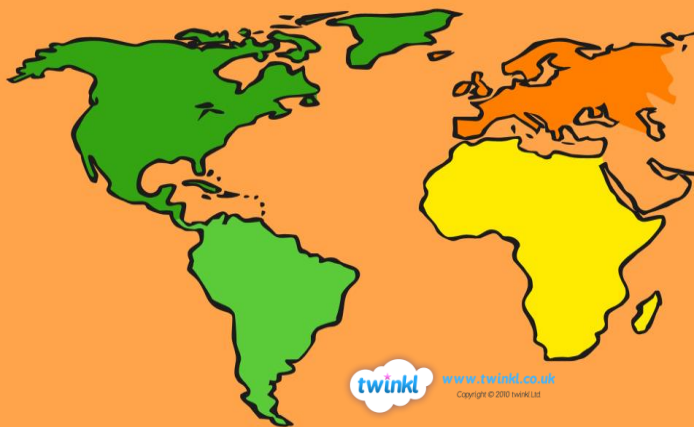

Today I am going to give you some ariel photographs with some landmarks, human features or physical features. I want you to try and spot them in the photographs and label it! Have a go at these examples. Talk about it with your adult.
