

Local Habitat Living, Dead or Never Alive

Think about a local area, it could be your street or your garden, it could be a woodland area nearby. Think about what is there which is living, dead or never alive. If you are unsure what this means recap last week's science lesson.

What is in this habitat? Look around you carefully and find things that are living, dead or have never been alive. Draw or write at least five things in each box.

| Living | Dead | Never Alive |
|--------|------|-------------|
