

## HOMWORK - BUSY THINGS

Your child has been given a busy things login. Please keep this safe. Once they have logged in with the username and password they will need to...

- click on the year 2 picture of a dog with a hat and glasses.
- click on their name and enter their password which should be 3 pictures
- They should only be able to see favourites and assignments. The reason for this is because we will be using Busy Things a lot for homework and they may complete activities which I want them to consolidate at home. Over any holiday period, depending on how well the children have been at school, I may then add a golden time area or fun activity area they can also access as a reward.
- They can enter favourites and I have saved a range of games they can practise at home. As we cover more content over the year, I will be changing things like range of numbers and sounds/tricky words.
- On Monday's children will receive their homework, most of the time this will be on Busy Things. They will need to click on assignment, complete their homework and submit it. I will then be able to see it.

Please trial the games over the week. Any problems please come and see me so we can sort it out.

I have been through it with the children and they enjoyed what I have set them so far.

Thank you.

Miss Smith
