

Homework week commencing 27th November 2023

Wonderful work on mental multiplication and division calculations. Most of you are taking your time to ensure that you are working through the problems thoroughly. So well done; please continue to check your answers carefully.

As we are focussing on synonyms in class, I have set you an English challenge to reflect this. I'm sure that you will continue to do very well. I hope you are finding the Atom website helpful and easy to navigate.

All the best for this week.

Any questions, please don't hesitate to contact me via email.

Kind regards,

Mrs Padam
