

Homework week commencing 9th October 2023

Great work on [Atom Learning](#). If you can manage to complete the baseline assessments, that would be very useful so questions can be pitched to the correct level.

As we have half-term next week, I have set you two pieces of homework; one for English and one for Maths. For English, I want you to identify the different sentence types and decide what punctuation is needed at the end of each sentence.

For Maths, I would like you to use your knowledge to order and compare numbers.

All the best! Wishing you all a wonderful half-term!

Any questions, please don't hesitate to contact me via email.

Kind regards,

Mrs Padam
