

Morning Year 6,

I hope you are all ok and have enjoyed playing in the snow!

I am setting you some work for today, but please go get some fresh air too. Enjoy the snow, play in the garden or take a walk.

1. Complete your Maths and Reading revision using your CGP booklets for today. If you have fallen behind on any other days, please use today to catch up!
2. I have uploaded a power point which will recap how to answer 3-mark Reading questions. Read the story chapters and information carefully, then have a go at answering the questions. You can then compare your answers to the mark schemes.
3. I have uploaded a power point to recap equivalent fractions, decimals and percentages. Read through the power point carefully and take note of the examples. Then choose either mild, spicy or extra hot questions to answer based on how confident you feel. Do not check the answers until you have finished!
4. Please read Chapter 15 and 16 of Holes. There is a link to the chapters here.
<https://blogs.glowscotland.org.uk/re/public/glencoatsp7/uploads/sites/2938/2020/06/01081755/Holes-Chapter-13-16.pdf>
We have read Chapters 13 and 14 in class but you can recap if you need to.

Please don't panic if you find this work tricky, just do what you can.

Have a good day and weekend!

Mrs Bradbury
