

Homework week commencing 17th April 2023

Welcome back! I can't believe we're entering our first Summer term! I hope you are all rested and ready for more exciting learning!

Excellent work on Weather and Climate, where you have written some great explanations and drawn super mind maps, so make sure that you collect your well-deserved house points!

This week we are practising our Maths knowledge on Measures, an area that we are currently studying. You need to compare the different measures and decide which symbol it matches, either $<=>$.

The activity is set on **Purple Mash** as usual. Enjoy!

Please complete your challenge by Monday 24th April.

Kind regards,

Mrs Padam
