

### Homework week commencing 21<sup>st</sup> November 2022

Well, you all seemed to have enjoyed the 'Bond Bubbles' and it has given you an opportunity to practise your number bonds further. House points have been awarded to you all!

As we have just started learning our multiplication and division facts in Maths, I have set another interactive game for you on **Purple Mash**. It will help you to practise your times tables as you move up to different levels helping your Multiplication Monster to grow!

Any questions, please don't hesitate to contact me via email.

Kind regards,

Mrs Padam
