

Homework week commencing 31st October 2022

So many delicious and healthy meals designed by you all! Well done! We might have some future chefs in our midst! Make sure that you pick up your house points!!

The next task is still on **Purple Mash** under 2Dos. We are continuing with our Science topic on Nutrition and Movement. This time I want you to show your understanding on what different animals eat and describe this carefully using the right vocabulary. Remember the work we have covered on this in class.

All the best!

Any questions, please don't hesitate to contact me via email.

Kind regards,

Mrs Padam
