

29.10.21

Please use this time to become familiar with this term's knowledge organisers. You will find them on the page called 'Our Curriculum'. Talk about the information on them and become familiar with the vocabulary as some of it is quite tricky.

The screenshot shows a website interface with a navigation menu on the left and a main content area on the right. The navigation menu includes buttons for 'News and Events', 'Parents', 'Children', and a 'Select Language' dropdown. The main content area features a 'Suggested Reading List' section with a PDF icon and the text 'Reading List Ages 5-7'. Below this is a 'Knowledge Organisers' section with a paragraph of text explaining their purpose. Underneath the text, the heading 'Autumn 2' is circled in black, followed by two PDF icons and their respective titles: 'Science - Living Things and their Environments' and 'History - Romans in Britain'.

Knowledge Organisers

A knowledge organiser is based on a topic that your child will be learning and contains the important information that your child will need to learn by the end of the topic. Teachers will use them in class and pupils are encouraged to use them at home to support learning. Homework could be based on this important information such as learning the definitions of vocabulary, researching words, people or places or learning about facts in more detail. Revising this information at home will then support learning in the classroom. They can also be used as a fun tool to discuss learning with the child.

Autumn 2

Science - Living Things and their Environments
