

Using 2Publish+

You start with the cover. Click the + to add pages (of 4 spaces) to the comic.

Click **clip art** and then the drop-down arrow for a list of sets of pictures eg superheroes, characters, computers

As soon as you start, click purple page in corner – **save** and name your work in **'My Work'** folder

You can **paint** in details using the paint tools

Drag on a **bubble for speech**. To move it around, click to select it (get the blue box) then put pointer in the middle and drag it. Also drag the origin near the characters mouth. There is a text box for narrator comments

Drag pictures to the page. To move them around, click to select the pic (get the blue box) then put pointer in the middle and drag it.

To get rid of any object – drag it to the bin

To resize a pic – drag a corner – but keep it the same shape
